Nomenclatural Note – Issue No. 75
June 7, 2020

Icones Colombianae
Additions to the Flora
of Colombia

Volume 2

Authors

Ruben P. Sauleda

Carlos Uribe-Velez

This is the second volume of a series consisting of icons of additions to the flora of Colombia published on the website of New World Orchidaceae – Nomenclatural Notes (www.newworldorchidaceae.com). Only new species or additions for Colombia are included in this series. Descriptions are not included, these are available on the website where the species were published along with additional pictures. Each volume consists of ten icons. Additional volumes will be published as publications become available.
